**Description of Reasonably Foreseeable Impact of the Planned Changes:**

After retirement of the copper facilities, CBT will (1) no longer offer services over the copper facilities; and (2) cease maintaining copper facilities. All services previously provisioned over copper facilities to affect customers will continue over fiber facilities.

CBT has engaged the single interconnected telephone exchange provider's engineering group in discussions regarding the retirement of the copper at the addresses below. There are 41 CBT customers in the addresses affected by the road job. CBT is actively working to move these customers to fiber facilities, thus there should be no impact of a due date of less than 90 days.

**Description of any changes in prices, terms, or conditions that will accompany the planned change(s):**

No customer will have a change in rates, terms and conditions of their service resulting from the retirement of the copper facilities.
